BANGKOK, THAILAND (12 November 2018) – Pioneering active lifestyle developer, Sunplay Asia, is celebrating after its stunning project on Thailand's Eastern Seaboard won a prestigious regional award at the PropertyGuru Asia Property Awards Grand Final 2018.

Sunplay Bangsaray, a collection of 70 luxurious condominiums and 75 private pool villas just two hours' drive from Bangkok, was named as the "Best Condo Architectural Design (Asia)". The award means that the exquisite development is rated alongside Asia's most distinguished real estate projects, including luxury developments in China, Hong Kong, Singapore and Vietnam.

The annual PropertyGuru Asia Property Awards are considered the highlight of the Asian real estate calendar. This year's Grand Final and black tie gala dinner took place on 9 November 2018 in the ballroom of The Athénée Hotel, a Luxury Collection Hotel, Bangkok, and marked the conclusion of the PropertyGuru Asia Real Estate Summit.

"The PropertyGuru Asia Property Awards are the most highly-respected honours in the Asian real estate sector, so we are pleased to be selected as one of the winners," said Chris Delaney, Managing Director, Sunplay Asia.

"Following our success at the Thailand Property Awards, where we won four honours, this award in the Grand Final is the perfect way to crown an outstanding year.

"Sunplay Bangsaray is Thailand's first fully-integrated active lifestyle community and we look forward to inviting Thai and international buyers to discover a new era of luxury living on Thailand's Eastern Seaboard. This award will inspire our team to reach even greater heights as we move forward with the launch of this exciting project," Delaney added.

Nestled between the mountains and the sea, just 90 minutes from Bangkok's Suvarnabhumi Airport and 20 minutes from the recently expanded and upgraded U-Tapao International Airport, Sunplay Bangsaray is uniquely designed for residents seeking an active, independent and luxurious lifestyle. The project features a range of contemporary condos and stylish pool villas set amidst beautiful tropical gardens and shimmering ponds. A private clubhouse offers 5,000 square metres of indoor and outdoor facilities, including upmarket dining, a large swimming pool, tennis court, putting green, snooker room and more.

The world-class development has now been recognised as one of the best architectural designs in Asia, alongside other prestigious projects including Glorious Mansion in China, 8 St Thomas in Singapore, Alpha City in Vietnam, and Mount Pavilia in Hong Kong.

Established in 2005, the Asia Property Awards celebrate the extraordinary achievements of developers and developments all across Asia. Covering more than a dozen countries and rewarding only the best developers and developments at a domestic and regional level, the awards provide a benchmark of excellence for the Asian real estate sector.
